

# Effect of *Lactobacillus Casei Zhang* on *E. coli* induced injury of blood and milk barrier in dairy cow

(Yuhui Zheng, Shengli Li\* China Agricultural University, Beijing, 100193)

- Control
- E. coli*
- Lactobacillus Casei Zhang*+*E. coli*
- Lactobacillus Casei Zhang* (LCZ)

*Lactobacillus Casei Zhang* could effectively improve the damage of the blood-milk barrier caused by *E. coli*.
